Child Centered Care -

Developing a Healthy Spirit, Mind, and Body!

Our Child Development Center provides care for children in a secure setting with opportunities for cognitive, physical, social and emotional development. The Concord Family YMCA Child Development Center is a **License Plus childcare provider**. License Plus is a certification established by the NH Bureau of Childcare Licensing that is representative of a higher level of quality in childcare centers. The Concord Family YMCA Child Development Center is one of only 9% of all licensed childcare providers in New Hampshire that have achieved License Plus certification.

Our nationally honored after school program promotes character development through the traits of caring, honesty, respect and responsibility. Take part in our "fun and fit program" where children are encouraged to make healthy choices for an active and healthy lifestyle.
